He says the anticipated wave may not reach this section until about November the first, but it may come sooner. At any rate, it is bound to come, and in order to be ready to meet your stoves should be ready and up, our coal laid in and no rush necessary when the blasts come around the corner requiring "Where have you been all winter?" For the stoves, there is no assortment in the South than is sold at W. I. Delph's; not only heating cooking. Also, all manner of householding goods, cutlery, &c. GRATEFUL WOMEN.—None receive so much benefit, and none are so profoundly grateful and show such an interest in recommending Hop Bitters as women. It is the only remedy peculiarly adapted to the many ills the sex is almost universally subject to. Chills and fever, indigestion or deranged liver, constant or periodical sick headaches, weakness in the back or kidney, pain in the shoulders and different parts of the body, a feeling of lassitude and despondency, are all readily removed by these Bitters. 52

Read the proceeding of the Committee on Free Ferries, in Columbia on the 15th. An invitation is extended to the people of Lexington, Richland and Newberry to attend a mass meeting to be held in the City Hall in that city on the 28th. Everyone interested should be there. From the proceedings as published it looks as if the Columbia Bridge Company had fallen back on its dignity and ignorance, and it might be well for the meeting on the 28th to abstain from any further overtures, and proceed to work in carrying the ferry idea through. If the merchants of Columbia had a little more spirit of enterprise they would soon have the custom from this county to their doors at a nominal ferrage, which, yet, would be sufficient to pay expenses. There is one thing certain, Lexington County don't want to buy either Columbia or Broad River Bridges. She is particularly interested upon this point when the extremely large figures, which the former company proposes, are considered.

As we are assured that all our subscribers who are in arrears, will come forward and settle up as they promised, when their finances will admit, we do not intend to dun them through our columns. We would suggest that when they do settle up for past accommodations that they also pay in advance for the next 6 or 12 months, as at this season of the year money is more plentiful than in the summer. If they pay in advance the paper will be at the rate of \$1.50 per annum, whereas otherwise, it will certainly be \$2.00.

On Saturday 11th, a dog belonging to Mr. Harsey on Bull Swamp, attacked a negro on Jones' Bridge road near his house, bit a dog belonging to Mrs. C. Bachman, also one of Harsey's dogs.
